INTRODUCTION

Tambov is a city located in western Russia, specifically in the Tambov Oblast region. It has a population of around 280,000 people and is situated on the banks of the Tsna River. The city has a rich history, dating back to the 16th century, and is known for its numerous museums, parks, and historical monuments. Tambov is also an important industrial center, with a significant presence in the agricultural and manufacturing sectors. The city is easily accessible by train and bus from nearby cities, as well as by air through the Tambov Donskoye Airport.

Tambov region is famous not only for its sights, but also for its achievements. Our region is one of the leaders in the field of agriculture. According to the Tambovstat report for 2017, the growth rate of industry in the Tambov region is 10 times ahead of the average Russian figures. In the national rating of the state of the investment climate in the regions of the Russian Federation Tambov region ranks 11th. The geographical position of Tambov has a lot of advantages: railways and highways connect our city with a huge number of large and developed regions of the country. Tambov region is open to visitors from all over the world

ABOUT UNIVERSITY

Derzhavin Tambov State University was founded in 1917 and is a higher education institute. The institute is located in Tambov city, Russia. This university is one of the best universities for medical education. The university welcomes foreign students with open hands and provides diversity to the students. The environment and culture of the institute are perfect for the students to grow and develop. The infrastructure of the university is worth watching as it has a beautiful heritage. **The Mission of the Derzhavin University** is to preserve and develop human capital. We put people and their development at the heart of it. For us, science and innovation are ways to develop society. Everything we do is for people. **The Strategic Goal of Derzhavin University** is to form a unique scientific and educational environment, ensuring the high competitiveness of the university at the national and international level for the sustainable development of the region. We want to achieve such a level of development in order to ensure the high attractiveness of the area of presence at the national and international level. By developing the university, we develop our region and vice versa.

RECTOR'S VIEW

Pavel Moiseev

RECTOR

Derzhavin Tambov State University

Dear friends

I am glad to welcome you to
Derzhavin Tambov State University!

Our University has been keeping a record of its activities since 1918 and during this time has prepared thousands of highly qualified specialists who successfully work both in Russia and in the countries of near and far abroad. Achieving high results in various activities, graduates of Derzhavin Tambov State University apply knowledge and skills acquired at University in politics and economics, law and medicine, business and science.

Derzhavin Tambov State University is the winner of the government program "Priority 2030". The goal of the program is to form a pool of universities by 2030, which are to become centres of scientific, technological and socio-economic development of Russia. One of the strategically important goals for us today is training specialists who will be required by the world economy in 5-10 years within the framework of the modern technological paradigm.

Derzhavin Tambov State University offers courses in more than 200 fields of study. Nowadays, 14,000 students study at the University, 3,500 of which are foreign students from 75 countries across the world. Foreign professors, leading Russian specialists and scientists are actively involved in the educational and scientific process. Derzhavinsky closely cooperates with 160 foreign educational institutions from 42 countries of Europe, Asia, Africa and America. Being the organizer of international projects for scientific and educational activities, Derzhavin University initiates internships in foreign partner universities.

The University has 14 small innovative enterprises for practical training, 4 scientific-research institutes, 42 scientific schools, more than 75 research centres and laboratories, including the high-tech centre "Nanotechnologies and Nanomaterials" and the Derzhavinsky Technopark, where innovative and scientific projects, being developed by students under the guidance of scientists and professors of the University, are implemented.

The Medical Institute of Derzhavin Tambov State University is one of the best medical institutes of Russia. For training highly qualified doctors, the University has its own modern Accreditation and Simulation Centre, where situations that arise in the course of medical activity are simulated by means of training simulators and simulators of the latest generation. Students of the Medical Institute do practical training in 130 modern clinics of Russia, 40 of which being located on the territory of the Tambov region.

Derzhavin Tambov State University has vast experience in teaching and social and cultural adaptation of foreign students.

The University is a favourite among foreign applicants due to decent quality of education, teaching the programs in Russian, English, French, as well as due to the high standard of living in Tambov, combined with a low commodity bundle.

We are waiting for you in Derzhavinsky!

MEDICAL INSTITUTE

The Medical Institute as a part of Tambov State University named after G.R. Derzhavin has existed since 2007.

The training of future doctors at the university is carried out by 19 departments headed by professors, doctors and candidates of medical sciences. The students are taught by the best practitioners of 18 medical institutions of the city of Tambov and neighboring regions, who have repeatedly improved their qualifications in Russian and foreign medical centers.

Currently, the Medical Institute implements programs in the specialties of higher education "Medicine", "Dentistry", "Pediatrics" and secondary medical professional education "Nursing". The training is practice-oriented. For this purpose, the TSU Medical Institute has a modern educational and laboratory base: specialized laboratories and classrooms, an Anatomical Museum, a Medical Kunstkamera of the educational museum. An integral part of continuing medical education and practice-oriented training of students is an Accreditation and Simulation Center that meets the most modern requirements. The clinical bases of the Institute are the best medical institutions of Tambov. Students of the Medical Institute have ample opportunities to engage in scientific work within the framework of 16 scientific circles: histology, cytology, embryology; operative surgery and topographic anatomy; pathological physiology; pharmacology; psychiatry and narcology; obstetrics and gynecology; experimental biochemistry and immunology; hospital therapy; traumatology and orthopedics; public health and healthcare; history medicine; propaedeutics of internal diseases; faculty surgery.

The results of student scientific work are presentations at conferences of regional, national and international level, scientific publications, participation in competitions and Olympiads. To develop the creative and athletic potential of the students' personality, an active civic position, the following associations have been created at the Medical Institute: the regional branch of the All-Russian Public Movement in the field of healthcare in the Tambov region "Medical Volunteers" - working in six directions: volunteer assistance to medical organizations, sanitary and preventive education, popularization of personnel donation, first aid training and support events, healthy lifestyle, programs for schoolchildren; creative team "STS" - organization of various thematic holidays and celebrations; photo club "Lens" - the history of the events of the Institute through photographs and video materials.

Students of the Medical Institute realize all their creative potential annually by participating in the university and city festivals "Student Spring", competitions "Dancing in Derzhavinsky", "Voice in Derzhavinsky", organizing the work of Health Schools "Youth – for! Healthy lifestyle".

DIRECTOR'S VIEW

Nikita I. Voronin

Director

Tambov State Medical University is my Alma mater! I'm fortunate enough to have studied in this university which made sure we get good education (FMGE % of passing says it too). Not only did the university focused on education but it also allowed us to have extra curriculum. Everyday of 6 years was worth. Everything that is provided is of good quality starting with studies (Good faculties) to hostel facilities. In case of difficulties our university was always there to help us in any matter.

Dr. Pooja Ingle

MD in General Medicine
Graduate - 2021

Derzhavin Tambov State University

So far my time in Tambov has been fruitful not only in academics but socially as well. Although challenges present themselves now and then, Derzhavin Tambov State University makes changes to help accommodate international students better. It's motivating and encouraging to look forward to the future.

Dr. Dharmendra Kripal Singh Chauhan

MD in General Medicine
Graduate - 2021

Derzhavin Tambov State University

Tambov State Medical university have amazing outreach programmes to extend their reach to many students. I am student of General Medicine 3rd year from India. Studying in Russia was quintessential decision. Accomodations are modern and provided by university itself. Universities focus and believe to provide best practical experiences with concise theories. Would highly recommend to get a feel of the University.
